

Unit 5 Assessment

World Geography and Vocabulary Assessment

Grade 3 Social Studies | Oceans, Continents, and Geographic Terms | Weeks 12–14

Name: _____

Date: _____

Part A: Knowledge Check

Choose the best answer.

1. How many continents are on Earth?

- A. 5
- B. 6
- C. 7
- D. 8

2. Which is the largest ocean on Earth?

- A. Atlantic Ocean
- B. Indian Ocean
- C. Pacific Ocean
- D. Arctic Ocean

3. What is a landform?

- A. Any body of water
- B. A natural shape of the land, like a mountain or plain
- C. A type of weather
- D. A man-made building

4. What is the difference between a lake and a river?

- A. A lake is salt water and a river is fresh water
- B. A lake is bigger than a river
- C. A lake is still water surrounded by land; a river flows across land
- D. There is no difference

5. Climate is:

- A. Today's weather
- B. The usual weather pattern of a place over a long time
- C. The temperature right now
- D. How much it rained yesterday

6. "South of the Great Lakes, near the Mississippi River" is an example of:

- A. Absolute location
- B. Relative location
- C. A map scale
- D. An elevation

7. Match each word root to its meaning.

_____ geo-	A. water
_____ terra-	B. almost
_____ aqua-	C. earth
_____ pen-	D. land

Part B: Map and Source Task

Read the description. Then answer.

Description: Asia is the largest continent on Earth. It is home to the Himalaya Mountains, the tallest mountains in the world. Asia has many different climates — from frozen tundra in the north to tropical rainforests in the south. Its natural resources include rice, oil, and timber.

8. Based on the description, which landform would you find in Asia?

- A. The Great Plains
- B. The Himalaya Mountains
- C. The Grand Canyon
- D. The Everglades

9. Using the description above, explain how climate affects what grows in different parts of Asia. Give one specific example.

Part C: Constructed Response

10. What is the difference between absolute location and relative location? Give one example of each.

Part D: Virtue Reflection

11. Responsibility is one of the virtues for this unit. Explain why using precise geographic vocabulary (like the correct root words) is a form of responsibility for a curator.

Section	Points
Part A: Knowledge Check (Q1–7)	10 pts
Part B: Map/Source Task (Q8–9)	7 pts
Part C: Constructed Response (Q10)	4 pts
Part D: Virtue Reflection (Q11)	4 pts
Total	25 pts

Unit 5 Assessment — Answer Key

World Geography and Vocabulary Assessment

Part A (10 pts)

1. C — 7 (1 pt)
2. C — Pacific Ocean (1 pt)
3. B — Natural shape of land (1 pt)
4. C — Lake = still water surrounded by land; river flows (1 pt)
5. B — Usual weather over a long time (1 pt)
6. B — Relative location (1 pt)
7. Matching (4 pts): geo- = C (earth); terra- = D (land); aqua- = A (water); pen- = B (almost)

Part B (7 pts)

8. B — Himalaya Mountains (1 pt)
9. (6 pts) **Secure:** Explains climate controls what grows (e.g., warm wet = tropical rainforest, cold north = tundra with few plants) with specific example. **Developing:** General connection. **Beginning:** Restates prompt.

Part C (4 pts)

10. **Secure:** Absolute = exact spot using coordinates/address; relative = compared to other places. One example each. **Developing:** Explains difference but weak examples. **Beginning:** Confuses the two.

Part D (4 pts)

11. **Secure:** Using the right word (terrain vs. territory, peninsula vs. island) matters because sloppy words confuse visitors. Root knowledge helps choose correctly. **Developing:** General. **Beginning:** Names virtue only.
