

Unit 9 Assessment

Marketplace Decision Assessment

Grade 3 Social Studies | Basics of Economics | Weeks 24–27

Name: _____

Date: _____

Part A: Knowledge Check

Choose the best answer.

1. What does scarcity mean?

- A. Having too much of something
- B. Not having enough of something for everyone who wants it
- C. Sharing equally
- D. Buying things at a store

2. A haircut is an example of a:

- A. Good
- B. Service
- C. Currency
- D. Trade route

3. Which of these is one of the four characteristics of good money?

- A. It is the same color as the country's flag
- B. It lasts (durable)
- C. It is heavy
- D. It is made of gold only

4. What is a trade route?

- A. A type of money
- B. A path goods travel from a region with plenty to one with scarcity
- C. A kind of map legend
- D. A store that sells goods

5. The currency used in Mexico is the:

- A. U.S. Dollar
- B. Canadian Dollar
- C. Mexican Peso
- D. Euro

6. Every marketplace choice has costs and benefits. What is a cost?

- A. Only money
- B. Anything you give up when you make a choice
- C. A reward
- D. The name of a store

7. A seller is the person who pays for a good or service.

- A. True
- B. False

8. Match each term to its correct definition.

_____ Buyer	A. Help someone does for you that you cannot hold
_____ Good	B. The person who pays
_____ Service	C. A thing you can hold and carry home
_____ Scarcity	D. Not enough for everyone who wants it

Part B: Marketplace Scenario

Read the scenario. Then answer.

Scenario: A small coastal town catches plenty of fish but has no farmland for growing wheat. A valley town 50 miles away grows plenty of wheat but has no access to the ocean. Both towns need what the other has.

9. This is an example of:

- A. Scarcity leading to trade
- B. A government making rules
- C. People exploring new land
- D. A map showing directions

10. Explain how a trade between these two towns works. What does each town give up? What does each town gain? Why does honesty matter in this trade?

Part C: Constructed Response

11. Imagine you are on a town council. You must decide whether to build a new park (benefit: families have a place to play) or a new market (benefit: more goods and jobs). What is one cost of each choice? Which would you choose and why?

Part D: Virtue Reflection

12. Self-governance means thinking before you act, even when no one is watching. Explain how self-governance helps someone make a better marketplace decision.

Section	Points
Part A: Knowledge Check (Q1–8)	11 pts
Part B: Marketplace Scenario (Q9–10)	7 pts
Part C: Constructed Response (Q11)	6 pts
Part D: Virtue Reflection (Q12)	4 pts

Total	28 pts

Unit 9 Assessment — Answer Key

Marketplace Decision Assessment

Part A (11 pts)

1. B — Not enough for everyone (1 pt)
2. B — Service (1 pt)
3. B — Durable (1 pt)
4. B — Path goods travel from plenty to scarcity (1 pt)
5. C — Mexican Peso (1 pt)
6. B — Anything you give up (1 pt)
7. B — False — a seller provides the good/service and gets paid (1 pt)
8. Matching (4 pts): Buyer = B; Good = C; Service = A; Scarcity = D

Part B (7 pts)

9. A — Scarcity leading to trade (1 pt)
10. (6 pts) **Secure:** Coastal town gives fish, gains wheat; valley gives wheat, gains fish. Both are better off. Honesty = telling truth about quality/quantity. **Developing:** Describes trade but vague on honesty. **Beginning:** Incomplete.

Part C (6 pts)

11. **Secure:** Names one cost for each (park = no new jobs/goods; market = no play space) and makes a reasoned choice. **Developing:** Costs named but choice not well explained. **Beginning:** Missing costs or no reasoning.

Part D (4 pts)

12. **Secure:** Self-governance = stopping to weigh costs/benefits before choosing, not just grabbing what you want; leads to wiser decisions. **Developing:** General. **Beginning:** Names virtue only.
